

75th Street West Projects

Last Updated: February 2024

Overview

75th St W - 20th Ave W to Manatee Ave W - \$23,792,925

(Project # 6108260)

Widen the existing two lane roadway to a four lane roadway with a center left turn lane and/or median from 20th Ave to Manatee Ave (approximately 1 mile). Add and upgrade pedestrian and bicycle facilities, replace and upgrade traffic signals as needed to accommodate the widening, and add lighting. Project will require right-of-way acquisition. Due to right-of-way constraints the improvement will not meet the County's standard typical 4-lane section.

75th St W at Manatee Ave - Turn Lane Improvements - \$2,800,212

(Project # 6108261)

Design, permit, and construct an additional southbound left turn lane on 75th Street W, potentially a dedicated northbound right turn lane, and signal improvements to accommodate southbound dual left turn lanes and potentially the northbound dedicated right turn lane.

75th St West - Cortez Road - Manatee Ave Rebase and Resurfacing - \$11,322,444

(Project # 6108460)

This project encompasses design, bidding and construction of a 7,000 LF of roadway base, asphalt surfacing and repair sidewalks and curbing.
